The purpose of *PhilSci at the APA & CPA* is twofold. First, we hope to encourage philosophers of science to attend and participate at annual meetings of the APA and CPA. Second, we intend to track the extent to which philosophy of science is included in these meetings. Guides and statistics can be found at <http://www.ckwaters.com/on-the-web.html>.

This guide is based on the programme published on the APA website on 17 February, 2017. This guide is based on the programme published on the APA website on 17 February, 2017. Our aim is to include all presentations that address the topics and use the approaches characteristic of presentations and posters at conferences such as the *Philosophy of Science Biennial Meetings*, of articles published in journals such as *Philosophy of Science*, and of preprints posted at sites such as the *PhilSci-Archive*. We apologize if you are presenting a philosophy of science talk, commentary, or poster at this conference that has not been included in this guide. Please contact Ken Waters (ckwaters@ucalgary) if you would like your presentation, commentary, or poster added.
